VENTILATION HATCHES

FGHF SERIES

FGHF series - Straight Flush

VETUS goes all-in on their latest hatch

With great pleasure VETUS presents the latest addition to the line of flush hatches: the FGHF ventilation hatch series. Like its renowned siblings, FGHF hatches are specifically designed for modern type boats. The meticulously engineered construction of these hatches ensures a flush fitting into the deck, resulting in a silky smooth transition between hatch and deck. The 12 mm thick 'dark smoke' acrylic gives that 'VIP-privacy-glass' vibe, while the polished and anodized aluminum frame completes the classy and time-less design on the inside. The FGHF series distinguishes itself from the FGH series by having flush mounted handles, stays and hinges in the acrylic so nothing protrudes. On that perfectly flat surface, no lines will get caught. The larger sizes hatches are equipped with a socket in the handle, so they can be opened from the outside with the help of a winch handle. If there is no winch handle present on the boat, VETUS can supply one (Item code: P103864 or P103865).

In it to win it - VETUS FGH Flush series

The flush design reduces wind noise and is easy to clean. The VETUS clamps close the hatch tightly, making this hatch suitable for design category A, area II locations. The polished and anodized aluminium frame is both stylish as maintenance-free. FGHF hatches are engineered for cut-outs with a corner radius of 43 mm and are available from stock in the dimensions mentioned below.

Unique features

- 12 mm thick 'dark smoke' acrylic
- Polished and anodised high grade aluminium frame
- Ergonomical and precision engineered handles
- Hatches are available in square shapes
- Easy to clean and maintenance-free design
- Suitable for category A, area II positions
- Larger hatches can be opened from outside with a winch handle (FGHF5151 & FGHF6363)
- FGHF2626 and FGHF4444 are completely flush
