

## IMPROVED PRODUCT

# ROLLER BLIND/FLYSCREEN

## HMB 2.0 SERIES

**All the versatility you need - HMB 2.0 series**  
**Swipe to your ideal cabin condition**

VETUS proudly presents the HMB 2.0! The roller blind and fly screen combination designed specifically for escape and ventilation deck hatches, has received an update. The sleek design of the HBM which will maximize vision, and is now fitted with a modified clasp for durability, a stronger and easily adjustable spring to manually reset the tension of the screen and a redesign of the guide system to ensure smooth use.

One side of the unit contains an automatically retracting roller blind, the other side an automatically retracting roller fly screen. The hatch can be locked out by pushing the handle all the way to one side. Alternatively, by pushing the handle in the opposite direction, the blind retracts and the fly screen covers the aperture. Separating the magnetic clasp in the handles allows both the blind and the fly screen to retract automatically into their housings.

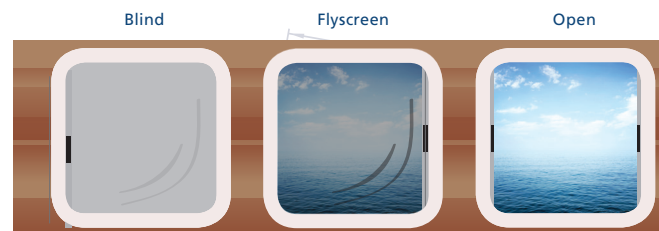

### Daylight, fresh air or darkness? Just swipe to your preference

All housing parts are made from powder coated (off white) aluminium and will therefore last for years without discolouring. The blind and flyscreen are made from UV stabilised grey PVC coated material. The HMB series is engineered for hatches with corner radii of 43 mm or less. Suitable for the Altus, Magnus & FGH hatches mentioned below. Larger versions will follow during 2020. The HMB series is available from stock.

### Unique features

- Compact dimensions
- Easily adjustable spring to reset the tension of the screen (the HBM stays in place opposed to the competitors!)
- Upgraded components to increase durability
- Smart design combining two automatic roller mechanisms in-one
- Made from high grade aluminium, finished with a durable white powder coating
