

**NEW PRODUCT**

**HD WATERLOCKS**

**HPW127 - HPW152 - HPW127152**

**Heavy Duty Waterlocks - HPW series**

For high-output engines

A new range of high performance Heavy Duty waterlocks is launched: VETUS presents the HPW series!

Made of the special blended composite NAVIDURIN® - which is temperature resistant up to 260°C - these Heavy Duty waterlocks outperform standard GRP materials by 170%! The same applies for the thermal resistance to deformation under pressure. The HPW series is perfect for applications where the system is put to the test such as commercial or coastguard vessels.

**High-performance material and rotating hose connections for a near custom installation - who needs GRP?**

The ability to handle extreme conditions combined with the rotating bodies and hose connections makes the HPW series an economical alternative to high priced and high-end custom made solutions. The HPW series will be available from stock in October 2017.

**Unique features**

- Special composite blend (NAVIDURIN®) is capable of handling temperatures up to 260 °C
- High capacity waterlift design providing complete security for your engine
- Excellent sound attenuation with minimal back pressure
- Rotating body and hose connections for easy installation
- Complete with floor mounting brackets

Type	Description	Diameter in	Diameter out	Capacity (litres)
HPW127	High Performance Waterlock with 360° rotating hose connections (black)	127	127	55
